Section 2 : Costings

The Scheme is owned and operated by the Bathroom Manufacturers Association. There are two levels of applicable Fees - a Registration fee for the applicant company, and a listing fee per product. All fees stated exclude VAT.

Both these fees are payable in advance and become due upon application.

As the Scheme is operated by the Bathroom Manufacturers Association the administration of the Scheme is considerably subsidised by its membership. Members of the BMA who successfully apply for registration will benefit from a reduction in all fees..
